15 MAR 1983

John:

Your memo of 7 March 1983, is correct. I rechecked with [redacted] and OP does have all equipment they have ordered from WANG WP. They are using it as they (OP) they see fit. They do not necessarily have all WANG equipment they need--but they have not budgeted for it and are playing with "84 unfunded" and "85 initiative" money games.

25X1

I checked with [redacted], the OP ADP control officer. Same story with the additional factor that the move [redacted] is causing them to "rethink" what they really need. ODP and OC are planning to support OP at [redacted] with up to two Alliances with up to 40 work stations. This means that wires will be pulled and electricity in place, but no actual hardware. [redacted] is currently writing a paper for [redacted] on projected OP WP and ADP needs.

25X1

25X1

25X1

Checked with [redacted] - same story.

25X1

Checked with [redacted] (ODP). OP had some outstanding old requirements for VM terminals to use on PERSIGN. These are currently being filled (four terminals were hooked up circa 1 March) and OP's VM/GIM access needs are essentially complete.

25X1

The DA (ODP, OC, LOG, etc.) is "clean" with respect to OP.
